**A PRESENTING PARTNERSHIP OPPORTUNITY  
AT THE LARGEST AND LONGEST RUNNING  
TENNIS EXHIBITION IN EUROPE.**

# ***A brief introduction to The Liverpool International Tennis Tournament.***

***The Liverpool International Tennis Tournament (LITT) was established in 2002 as a warm up event for Wimbledon to give top ATP and WTA players as much grass court practice as possible prior to the most important tennis tournament in the world, Wimbledon.***

***Since the inaugural tournament Northern Vision has gathered an incredible list of the world's best players competing in Liverpool such as Novak Djokovic, David Ferrer, Marat Safin, Caroline Wozniacki and Martina Hingis to mention a few.***

The Tournament each year adds on a legends elect to the day and we have over the years hosted some of the most famous tennis players of the Open era like Bjorn Borg, John McEnroe, Martina Navratilova, Virginia Wade, Mats Wilander, Richard Krajicek, Greg Rusedski and the Iranian tennis trickster with the unmistakable 'tash', Mansour Bahrami.

Northern Vision each year carries out lot of work at grass route level and runs one of the most extensive CSR programs for tennis in the UK. We are the holder of an incredible world record in the largest tennis lesson ever staged where 806 kids from schools around Liverpool participated.

Prior to our Tournament each summer we run mini tennis lessons in Liverpool (Williamson Square, The Exchange Flags, The Town Hall, Liverpool One) reaching out to people to get them onto a tennis court.

Northern Vision works closely with

The Lawn Tennis Association to guide as many of the children and adults who attend our promotional program tennis to tennis clubs in Liverpool and its region. We have over the years introduced over 150,000 children to tennis through our Kids Programme prior and during during The Liverpool International Tennis Tournament.

At Northern Vision we have a philosophy to use Sport and Tennis as a tool to become active and healthy. In addition to our CSR program Liverpool International has projects involving students, local businesses and charities, making it a very community oriented event.

The tournament each year support a number of local charities and we have in recent years supported The R Charity and Leadership through Sport.

Due to the financial austerity hitting the Liverpool City Council they no longer look upon sport as something they can support and hence it is of great importance for the private sector to

embrace our initiative by encouraging kids and adults to stay healthy and active to fight obesity, mental health and crime through playing tennis.

In addition your firm will be part of putting Liverpool on a very exclusive map as tennis has an incredible global reach ensuring great economic and promotional gain for the North West.

I hope you will find the content of this brochure interesting and that we can meet up to discuss opportunities further.

Thank you for reading!

Tournament Director

# THE LIVERPOOL INTERNATIONAL TENNIS TOURNAMENT HOLDS A WORLD RECORD!

*Liverpool has officially smashed the world record for the largest ever tennis lesson according to the Guinness Book of Records – beating the marker set by Andy Murray’s mum Judy in July of 770 kids.*

The Liverpool International Tennis Tournament now holds the world record by coaching 806 kids during a tennis lesson during Kids Day.

Firmly guided by coaches, including Merseyside’s own Wimbledon legend Barry Cowan, local children from all over Liverpool took part in the session.

Mayor of Liverpool Joe Anderson led the plaudits following the announcement the record would stand.

“Congratulations to everyone who took part in this record-breaking tennis coaching lesson,” he said. “They should rightly be proud of themselves for making history.

One of the great aspects of the Liverpool International Tennis Tournament is the way in which it is inspiring the next generation of tennis players and encouraging young people to take up the sport.”

Ian McKenna, Director of Development at Liverpool Hope University said: “Breaking a world

record is a fantastic achievement, and I am sure that sense of accomplishment will stay with all of the young people involved for a long time. I hope that their experience as record breakers will help them develop a lifelong love of sport as fun, as part of a healthy lifestyle or even a career.”

Anders Borg said that he was immensely proud to bring the record to the city:

“We have been running the tournament in Liverpool since 2002 and throughout that time we have worked hard to introduce young people to the sport as an alternative to football. To have so many schools get involved with this effort and succeed in bringing the record to the city of Liverpool is a fantastic achievement and every pupil who took part should be proud that they have made history. Hopefully this will inspire them to go out to tennis clubs, playing fields and open spaces all over the city playing tennis and who knows, the next big British talent may well be right here in Liverpool.”
